

R&D Electronics Newsletter (2015 Issue 4)

Welcome to our 4th issue of newsletters in 2015!

R&D Electronics is the exclusive Sales-Channel of TECHSEM, which is a well-known Chinese developer and manufacturer of **diode / thyristor modules and capsules** with more than 48 years experience.

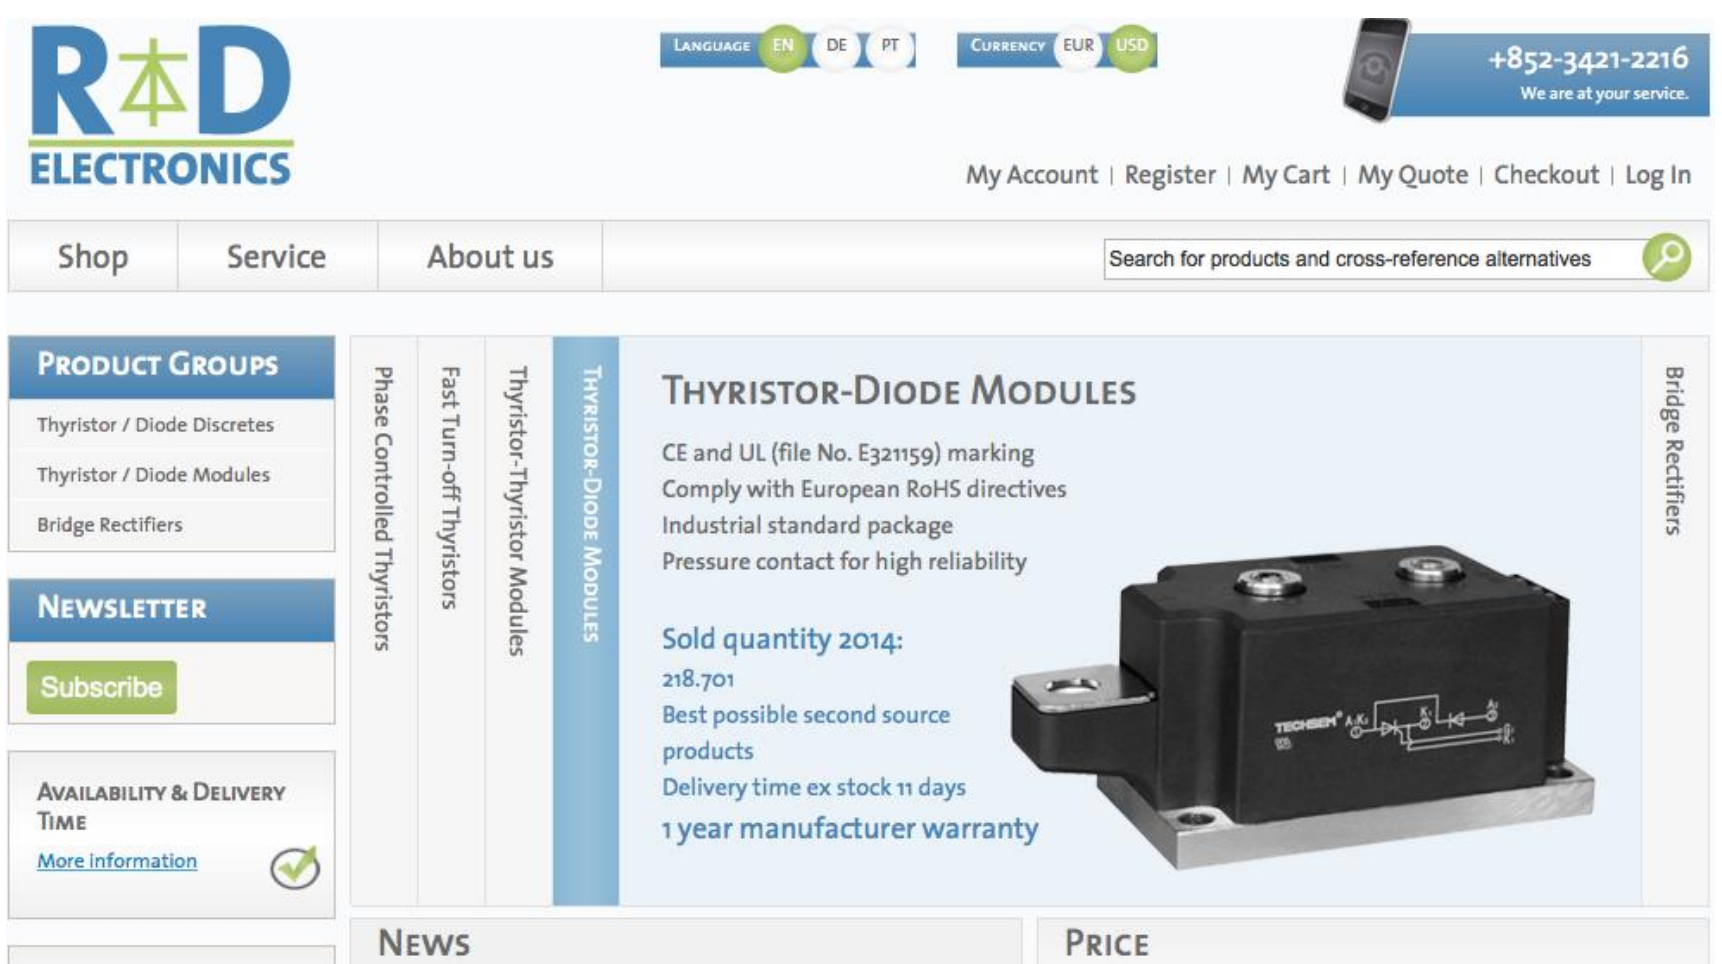

It is time again soon:

Visit us at PCIM Europe:
From 19 – 21 May 2015 in Nuremberg, Germany
Hall 9, Stand 9-429

Once again we will be exhibiting together with TECHSEM at the PCIM. The following products and services will be presented at our booth:

R&D Electronics Online-Shop

The screenshot shows the R&D Electronics online shop interface. At the top, there are navigation options for language (EN, DE, PT) and currency (EUR, USD). A contact number +852-3421-2216 is displayed with the tagline 'We are at your service.' Below this, there are links for 'My Account', 'Register', 'My Cart', 'My Quote', 'Checkout', and 'Log In'. The main content area features a search bar and a grid of product categories. The 'THYRISTOR-DIODE MODULES' category is highlighted, showing a product image and technical specifications: CE and UL (file No. E321159) marking, compliance with European RoHS directives, industrial standard package, and pressure contact for high reliability. It also lists 'Sold quantity 2014: 218,701', 'Best possible second source products', 'Delivery time ex stock 11 days', and a '1 year manufacturer warranty'. A circuit diagram is shown next to the product image. On the left, there are sections for 'PRODUCT GROUPS' (Thyristor / Diode Discretes, Thyristor / Diode Modules, Bridge Rectifiers), 'NEWSLETTER' (Subscribe), and 'AVAILABILITY & DELIVERY TIME' (More information). A 'NEWS' and 'PRICE' section is visible at the bottom of the product grid.

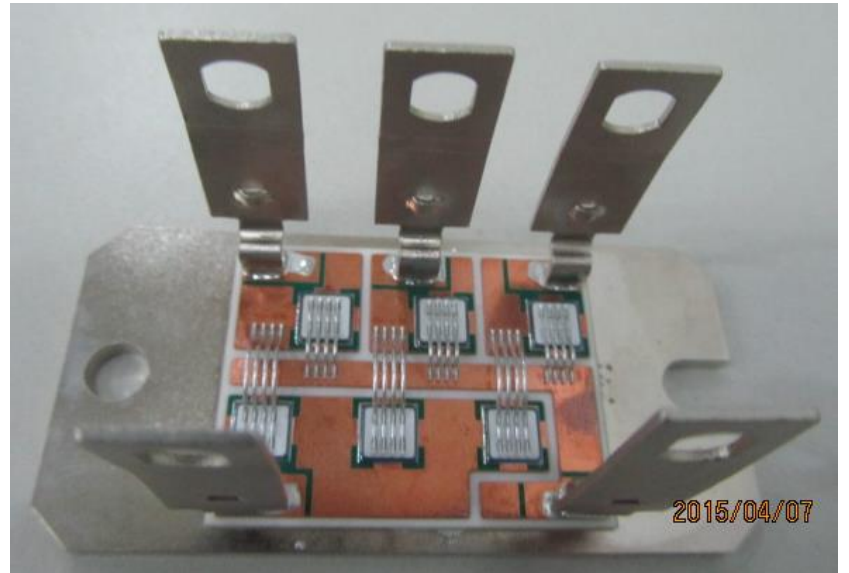

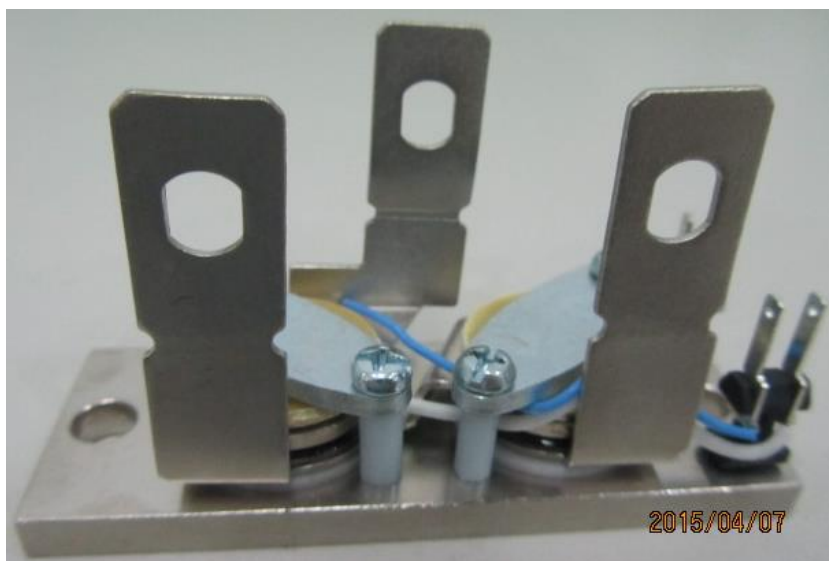

In our well-structured B2B e-commerce-portal www.rd-ebusiness.com you can quickly find and order all products with the help of the integrated user-friendly search and ordering process. The online-shop is presented in English, German and Portuguese language.

Wafers and Chips

TECHSEM is one of the few semiconductor manufacturers of the world who have the capability to produce own wafers and chips.

Differences between Pressure- and Solder Contact

With the help of the opened samples, the differences between pressure contact and solder contact modules can be clearly displayed. The higher reliability of the pressure contact modules can be made visible.

High Power Modules

The single modules with the current up to 1200A and the voltage of 3600V will be presented.

High Voltage Capsule Devices (Disc Cells)

The single capsule devices with the voltage up to 7200V will be presented at our booth as well.

We are looking forward to meeting you. For meeting arrangement please contact us via info@rd-ebusiness.com or by phone +852-3421-2216.

Yours faithfully

R&D Electronics Team
