

R&D Electronics Newsletter (2014 Issue 2)

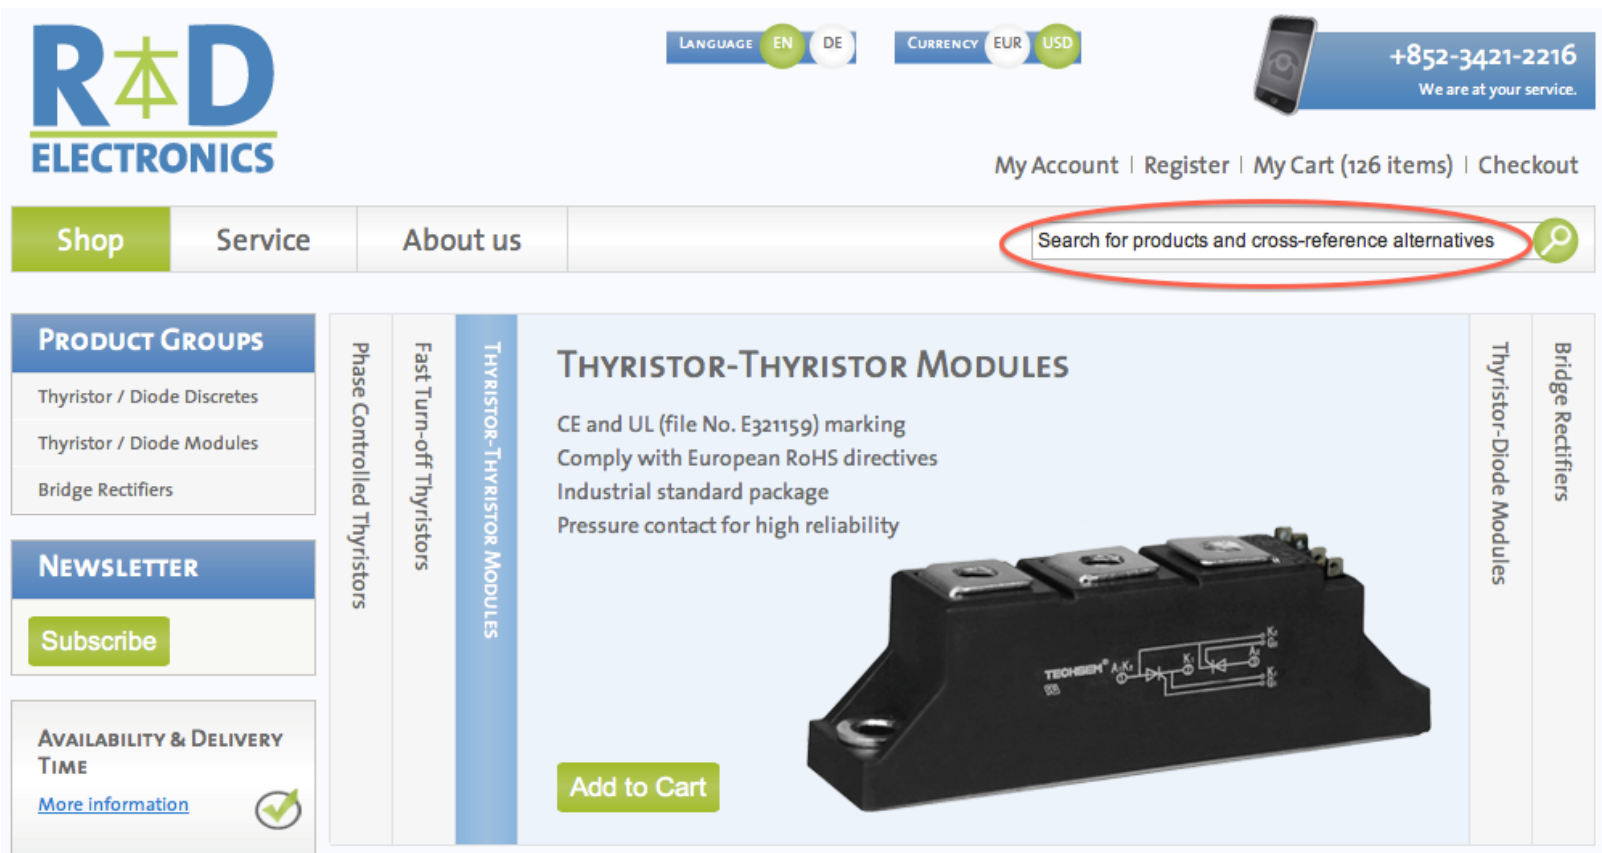

Welcome to our 2nd issue of newsletter!
 The main focuses of this issue are the possibilities of efficient product-search in our webshop. Moreover, because we place a very high priority on the product quality, we will give you an overview over the quality certificates of our partner TECHSEM. We believe that complying with international standards is the basis of customer satisfaction.

For more information please visit our webshop: www.rd-ebusiness.com

Yours faithfully
 R&D Electronics Team

How to find the products I need?

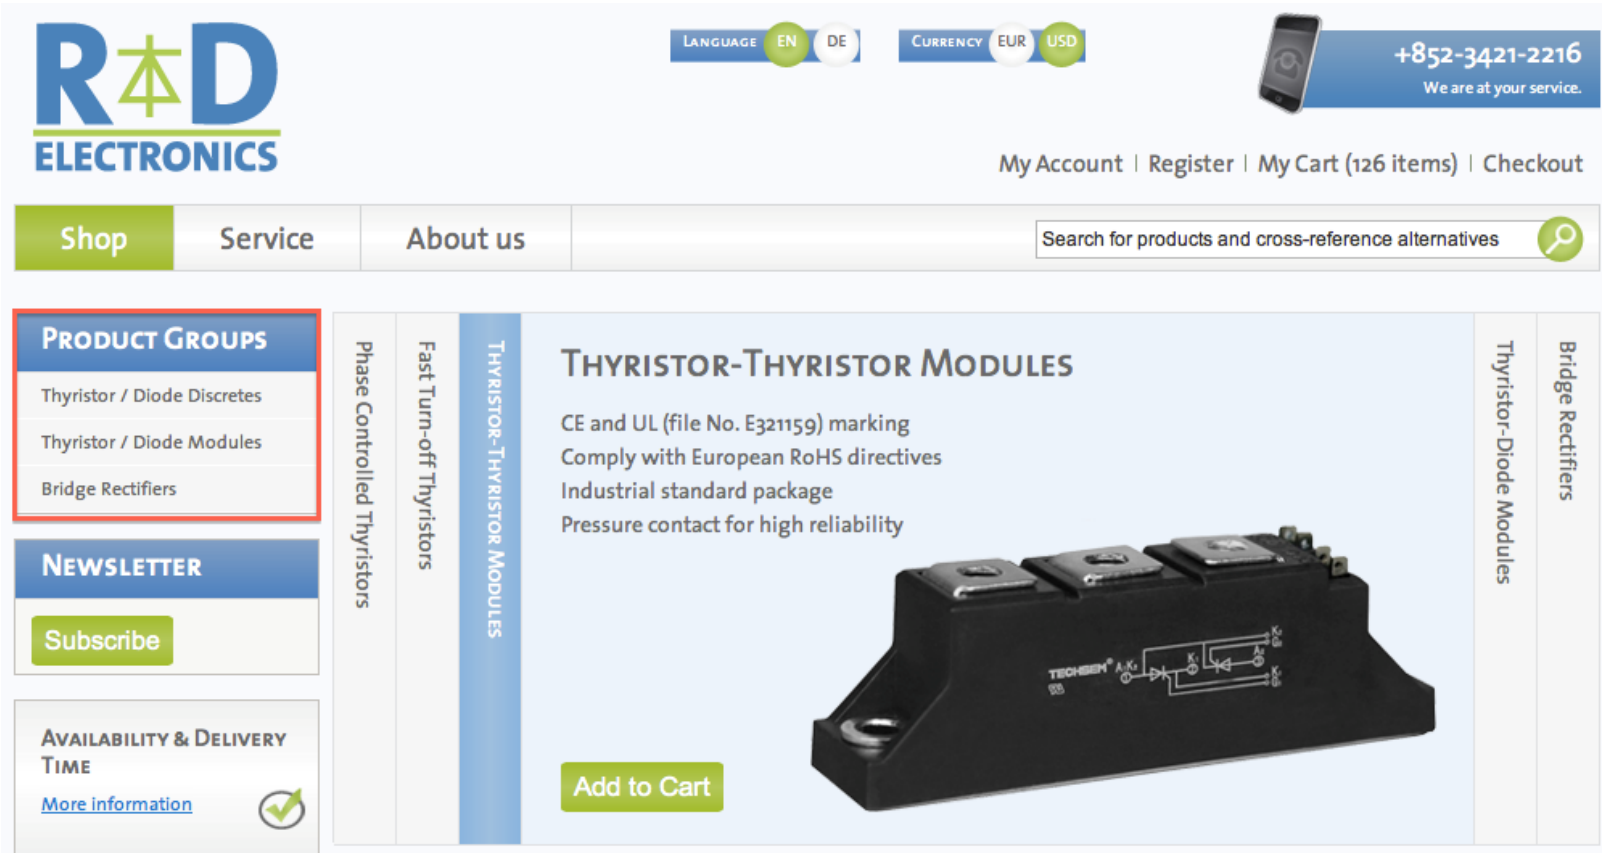

Option 1: Using the search box

The screenshot shows the R&D Electronics website interface. At the top, there are navigation links for 'Shop', 'Service', and 'About us'. A search bar is located in the top right corner, containing the text 'Search for products and cross-reference alternatives', which is circled in red. Below the search bar, there are several product group categories listed on the left, including 'Thyristor / Diode Discretes', 'Thyristor / Diode Modules', and 'Bridge Rectifiers'. The main content area features a product listing for 'THYRISTOR-THYRISTOR MODULES' with a detailed description and an image of the product. A green 'Add to Cart' button is visible below the product image.

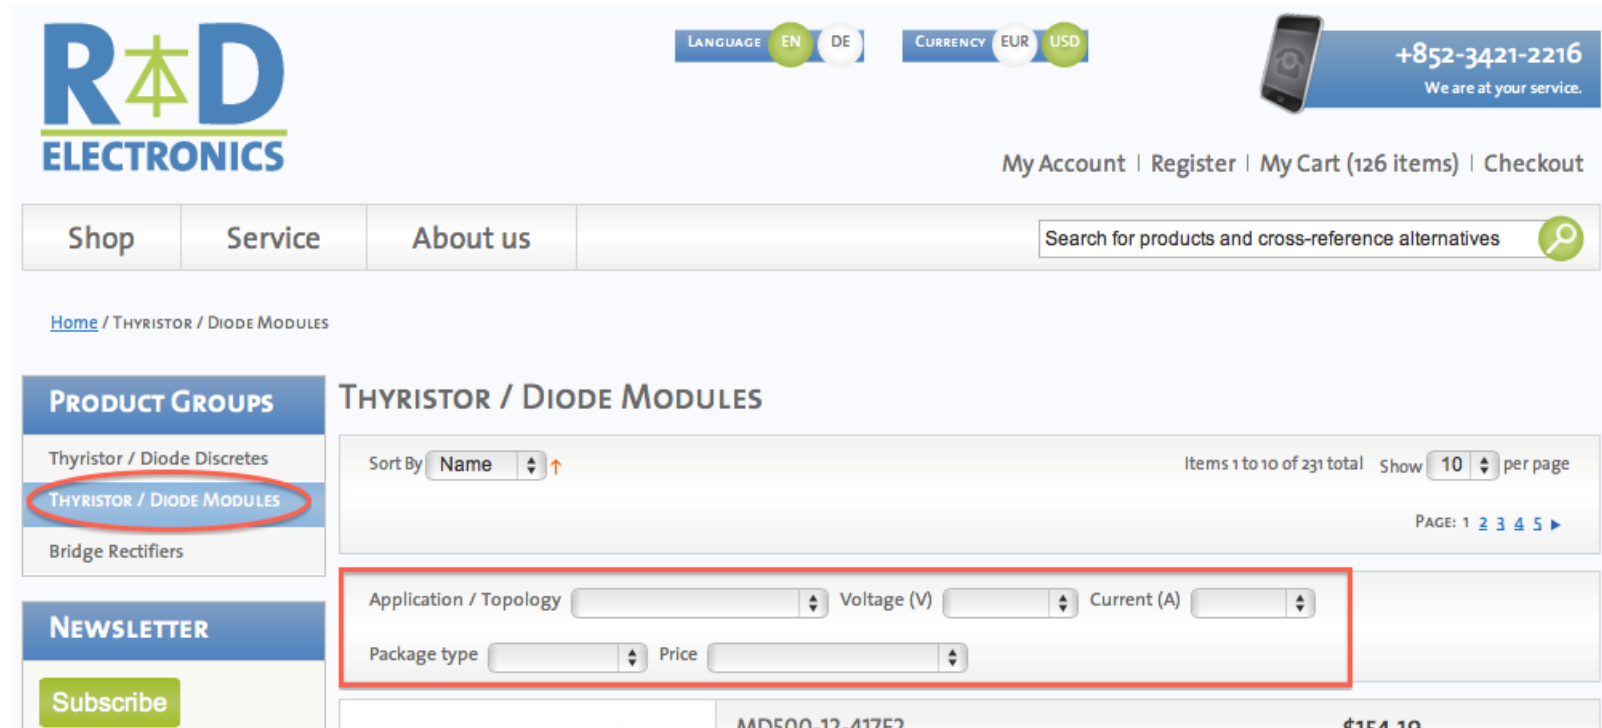

Here you can search the desired products by TECHSEM product names or the product names of other international providers (cross-reference alternatives). You will instantly get the appropriate product suggestions. Searching for cross-reference alternatives is especially useful, if you want to have an alternative solution (second source), next to your current supplier.

Option 2: Searching on product groups

This screenshot shows the same R&D Electronics website, but with the 'Thyristor / Diode Modules' product group selected in the left sidebar. The main content area now displays a list of products under this category, including 'THYRISTOR-THYRISTOR MODULES'. The search bar and navigation elements remain the same as in the previous screenshot.

Simply select the appropriate product group.

This screenshot shows the R&D Electronics website with the 'Thyristor / Diode Modules' product group selected. The main content area displays a list of products with various filter options. A red box highlights the filter options, including 'Application / Topology', 'Voltage (V)', 'Current (A)', 'Package type', and 'Price'. The search bar and navigation elements are also visible.

After determining the product group (here: Thyristor/Diode Modules) you can further narrow the products by the filter of the product properties (including topology/voltage/current). Then you will get the appropriate product suggestion.

Product Quality - the foundation of your satisfaction:

Certification of our products

1. CE-Marking:

All products available in the webshop are CE marked and therefore comply with the relevant EU directives.

2. European RoHS Directive:

All products in the web shop also meet the requirements of the European RoHS Directive 2011/65/EU.

3. UL:

All the power modules (with exception of bridge rectifiers) are also UL certified. The UL file-No.: E321159.

Visit us at our booth during the PCIM in Nuremberg

- When: from 20th – 22nd Mai 2014
- Where: at stand 9-548 in hall 9

We are looking forward to meeting you. For meeting arrangement please contact us via info@rd-ebusiness.com or by Telephone +852-3421-2216.
